

62,000  
Canadians  
have  
HIV/AIDS

Every day is a fight for life  
4,000 new people join that fight each year

*Cutting funding = cutting lives*

# More Canadians than ever are struggling with HIV/AIDS.

More than 4,000 Canadians will become newly infected this year.

*There is no cure for AIDS, each case costs much more than \$150,000 for medical treatment.*

*We cannot afford to keep falling behind in fighting AIDS in my community.*

**Its time to strengthen Canada's HIV/AIDS prevention, education and support services.**

**STOP CUTTING THEM!**
